1. Since work started on filling the artificial lake at "Stalin" Dam, the waters of the Iskur River have flooded a portion of the Sofia-Samokov road, as well as the villages of Gorni Pasarel (N 42-29, E 23-35), Kalkovo, (N 42-27, E 23-33), and Shishmanovo (N 42-27, E 23-36).
2. A new road has replaced the one which has been flooded, and handles the traffic between Sofia and Samokov. This road section departs from the old road at a point approximately two kilometers south of Dolni Pasarel (N 42-32, E 23-30) and rejoins it at a point about eight kilometers north of Samokov. This road is still under construction.
3. The sketch below shows the new route taken by this road.
